

Analysis By:Kenny Peck

5 **NOBLE LION** was racing consistently before the break last year and he returns with works that suggest he's ready off the five-month layoff; that most recent figure is imposing but it doesn't necessarily seem he'd need to run to it to win this race. 4 **TRAVEL AGENT** doesn't have a great deal of positional speed but he does have a strong late kick, and he figures to make his presence felt late; steady Beyers add to the appeal. 8 **CHIEF OF JOY** is another who will be looking to make the last run; he was closer to the pace in his latest thanks to a lack of speed in the field and he'd likely benefit from another forward trip today.
