

## 6th Race

12 - 2 - 3

I'll preface this by saying that I won't be surprised when Greyes Creek wins this race by as many lengths...or more as he did in his last race. However, Cavalry Charge is the one horse that I'm interested in taking a shot with. He took outside pressure, in a solid pace throughout last time out. The third place finisher came back to win a maiden special weight as well. I think that last race was legitimate and he's finally found his right distance and surface. I'll use My America who looked like he was improving late as a 3-year-old. My other opinion in here is that I'm not sure how strong that Churchill race (June 4th) was and I'm taking a stand against some horses that ran in there.
