

Analysis By:Kenny Peck

10 **FOX ROX** stayed in the race last time even when it was rained off the turf, and though he didn't run badly he did confirm that he's a professional turf sprinter at this stage of his career; he should get a rapid pace to chase in his 101st lifetime start and he may be good enough to pull off the upset with the right set up and a clean trip. 2 **IMPRIMIS** is obviously the main danger, coming off a big effort at Gulfstream Park in her most recent and a clear excuse for the off-the-board finish in the Breeders' Cup Turf Sprint prior to that; by all means the most likely winner but the price will be light. 9 **TURNED ASIDE** has speed but can also rate, and that versatility has been a big reason for his success; away since November but sporting some swift breezes for this seasonal debut.
